SUMMARY OF QUALIFICATIONS

· Solid foundational knowledge of designing and developing full-stack web applications using .NET framework.
· Selected as Centriq Training Developer Student for November 2020.
· Strong knowledge in Sql Server.
· Experience and related coursework in Database Administration.
· Great interpersonal skills and the ability to work effectively with a client.
· Self-starter with demonstrated ability to learn new technical concepts quickly
· Detail oriented, great written communication, and troubleshooting skills.

TECHNICAL SKILLS

Front End: HTML5, JavaScript, jQuery, jQueryUI, CSS3, Responsive/Mobile Web Development, Bootstrap, ReactJS, WordPress
Middle Tier: Visual Studio, C#.NET, ASP.NET, LINQ, MVC, EF
Back End: ADO.NET, SQL, SQL Server, SSMSE
Collaborative: Teams, Jira, Smart Factory.IO, TDD, AGILE focused collaboration

INDEPENDENT DEVELOPMENT PROJECTS

· **Personal Site**: www.reedcoding.com
· **Unite KC:** Volunteered to collaborate in the production of a website for a non-profit, grass roots movement.
· **StoreFront:** Creating a secure application for managing product data. Application is built to simulate an online store front with a shopping cart. Administrators have the ability to manage product, category and vendor data.
· **C# Dungeon Application:** Created a unique role playing, text-based game application, entirely in C#. Players can select which character accompanies them through the experience, and make choices to solve puzzles, fight monsters and save the universe.
· **Html & CSS Mock Site:** In order to demonstrate a thorough understanding of Html and CSS, this is a mock web application, built with no JavaScript or jQuery.
· **Final Project (Complete by December)**: Created a secure data driven ASP.NET MVC application from design through deployment for managing the tracking and organization of hardware and software within a company. Administrators have the ability to manage employee, department data and all details relating to assigned hardware and software.
